To Whom It May Concern:

IT MANAGED SERVICES - I-NET DYNAMICS PTE LTD

I-Net Dynamics Pte Ltd has provided IT support services to TMCC for the past four years and they have done a good job. We are happy with how I-Net Dynamics manages our infrastructure and delivers good service to our club. They have kept out spam and viruses, ensuring smooth IT operations in the club.

Using outsourced IT services provides cost savings compared to having a full IT headcount and it also allows TMCC to focus on our core functions. They are responsive and proactive whenever IT problems arise. They are also effective in ensuring servers and workstations are performing properly and optimize the performance of the IT infrastructure.

Overall, I am happy with the services that they have been providing.

Yours faithfully

MR ROY HIGGS
GENERAL MANAGER
